

**MILLERS, FARM GROUP
BACK BRETTON WOODS**

Special to THE NEW YORK TIMES.

WASHINGTON, March 24—The American Farm Bureau Federation and the heads of two large milling concerns endorsed the Bretton Woods legislation today.

The millers' endorsements came from Harry A. Bullis, president of General Mills, Inc., and A. E. Mallon, vice president of Pillsbury Mills and president of the Flour Miller's Export Association. Their approval and that of the farm group contained statements as to how they hoped the proposed Fund and Bank would be operated.

"I would definitely prefer to go into the post-war period with the Fund than without it," Mr. Mallon wrote.

Mr. Bullis predicted a \$2,000,000,000 export market if the plan were adopted, and asserted that the proposals were important because they would provide means "to keep triangular trade alive and promote its further growth."
