INTERNATIONAL MONETARY FUND

1975 Oil Facility Subsidy Account--Supplement  
to Final Report on Termination

Prepared by the Treasurer's Department

(In consultation with the Legal Department)

Approved by W. O. Habermeier

August 18, 1983

This supplement to the final report on experience with the 1975 Oil Facility Subsidy Account reports on the final disbursement of subsidy from the account, as authorized by Executive Board Decision No. 7484-(83/117), adopted August 2, 1983 (see Annex). Final subsidy amounts were calculated for payment on August 4, 1983, the date on which the last charges in connection with the Oil Facility were due. The rate of subsidy was 0.33 percent. The amounts of the subsidies are shown in Table 1.

Certain countries were late in discharging quarterly charges relating to the Oil Facility. For these countries, payment of the subsidy was delayed until those charges were paid, in accordance with paragraph 2 of the decision. Technical difficulties also delayed payments for a small number of countries. The final charge in connection with the Oil Facility was paid on August 12, 1983 and the final subsidy payment from the Account was made on August 15, 1983.

Beneficiaries whose subsidy payments were made after August 4, 1983 received a pro rata share in the investment income earned on the balances held pending disbursement. These payments are not considered to be payments of subsidy; hence the rate of subsidy for each beneficiary over the life of the account was a uniform 5.33 percent.

With the final payment on August 15, 1983, the business of the Oil Facility Subsidy Account is completed and the account is terminated.

ANNEX

In Executive Board Decision No. 7484-(83/117), adopted August 2, 1983, the Board decided as follows:

1. Subsidy payments shall be made to the beneficiaries listed in Table 1 of EBS/83/94, Supplement 3, on the Fund's holdings of each member's currency subject to charges that were outstanding under the 1975 Oil Facility and eligible for subsidy for the period May 1, 1975 to May 11, 1983 at a rate (approximately 0.32 percent) that will fully utilize the remaining resources of the account.
2. These payments shall be made in U.S. dollars as soon as practicable after all charges due at the end of July 1983 in connection with the Oil Facility have been paid.
3. No charge shall be levied for the services rendered by the Fund in the administration, operation, and termination of the account.
4. After disbursement of subsidy payments under paragraph 2 above, the Subsidy Account shall be considered terminated.
