Department Heads

INTERNATIONAL MONETARY FUND

International Reserves

Prepared by the Bureau of Statistics

Approved by Werner Dannemann

August 22, 1983

The attached tables present data on international reserves for the period end-1976 through July 1983, comprising the SDR and the U.S. dollar values of holdings of SDRs, Reserve Position in the Fund, Foreign Exchange, and the sum of these items, Total Reserves minus Gold. Data in the table on gold holdings are expressed in millions of fine troy ounces. The tables also report Total Reserves (with gold valued at SDR 35 per ounce) both in terms of SDRs and U.S. dollars. ^{1/}

Aggregations across countries include carry-forward extrapolations of individual country entries for which publishable data have not yet been received. Where data have been identified in countries' returns as confidential, they are shown as handwritten entries. These data have not been used in calculating area and group totals. All entries for July 1983 should also be considered as confidential until their publication in the September 1983 issue of International Financial Statistics.

All foreign exchange holdings are valued at end-of-month market rates, or, in the absence of market rate quotations, at prevailing official rates. Foreign exchange data expressed in SDRs are calculated from the U.S. dollar values, on the basis of prevailing SDR/U.S. dollar rates.

From 1979, for member countries of the European Monetary System (Belgium, Denmark, France, Germany, Ireland, Italy, Luxembourg, the Netherlands, and the United Kingdom), European Currency Units (ECUs) have been issued against the gold and U.S. dollar deposits they lodged with the European Monetary Cooperation Fund (EMCF). In the attached tables, gold deposited by these countries with the EMCF is excluded from their gold holdings; all holdings of ECUs are therefore included in their foreign exchange.

^{1/} A diamond symbol is used to mark breaks in the series, while the letter "E" indicates that the following observation is estimated.
