PRESS RELEASE NO. 83/29

FOR IMMEDIATE RELEASE  
April 1, 1983

The Board of Governors of the International Monetary Fund has adopted a Resolution authorizing an increase of 47.5 per cent in aggregate Fund quotas from the present level of SDR 61.060 billion to SDR 90.035 billion.

In order to adopt the Resolution, affirmative replies were required from Governors exercising a majority of 85 per cent of the total voting power of the Fund's membership. This requirement has been met, and, accordingly, the Resolution has been approved. The adoption of the Resolution by the Board of Governors completes the Fund's Eighth General Review of Quotas.

A further, and final, phase of the implementation of the quota increase under the Eighth General Review of quotas has begun and needs to be completed in order to bring the new quotas into effect. Each Member has until November 30, 1983 to formally consent to the proposed increase in quotas agreed for it. In order to meet this date each member will need to expedite whatever action may be required under its domestic laws to consent to (i.e., to "ratify" or implement) the increase in quota proposed for it and to pay the subscription. 25 per cent of the increase in each member's quota will be paid in SDRs, or in currencies of other members prescribed by the Fund, subject to their concurrence. The balance of the increase will be paid by the member in its own currency. Increases in members' quotas will become effective for members that have notified the Fund of their consents when the Fund determines that consents have been received from members having not less than 70 per cent of present quotas and these members have paid their increased subscriptions in full. A member has 30 days to pay the increase in its subscription from the later of the day it consents or the day the Fund determines that this participation requirement has been met.

The new quotas are thus intended to become effective before the end of 1983. This represents a considerable acceleration of the normal timetable applicable to the completion of the Eighth General Review, under which new quotas would not have become effective before the end of 1985. This acceleration was considered necessary in view of the present economic and financial conditions in the world.

A table showing members' present and proposed quotas in the Fund as well as each member's share in present and proposed quotas is attached.

Attachment

### Present and Proposed Quotas in the Fund

Member	Quotas (million SDRs)		Quota Shares (per cent of total)		Member	Quotas (million SDRs)		Quota Shares (per cent of total)
