Illustrative Quota Calculations

Prepared by the Treasurer's Department

Approved by David Williams

November 30, 1995

As requested by a number of Executive Directors, this supplement to "Eleventh General Review of Quotas - Illustrative Quota Calculations" (EB/CQuota/95/3, 11/15/95), provides illustrative quota calculations for individual members grouped by Executive Directors' constituencies, including illustrative shares in total quotas and total voting power. Tables 1-6 correspond to the calculations that were presented in EB/CQuota/95/3, as shown below.

| Table<br>Number | Fund Size<br>(In billions<br>of SDRs) | Illustrative<br>Distribution<br>Method |

| 6B              | 252                                   | A, B, D                                |
| 6C              | 288                                   | A, B, D                                |

South Africa, Sudan, and Zaire, which did not vote in the previous regular election of Executive Directors, have not been included as part of any existing constituency and are classified under "other." It should also be noted that, as indicated in EB/CQuota/95/3, illustrative quota calculations have not yet been made for several members because of lack of data (Afghanistan, Iraq, Liberia, and Somalia), or because the data have not yet been assembled for a recent new member (Brunei Darussalam). Accordingly, the data on quota shares and voting shares are presented based on the membership excluding the aforementioned members.
