

DOCUMENT OF INTERNATIONAL MONETARY FUND  
AND NOT FOR PUBLIC USE

**FOR  
AGENDA**

EBS/85/47  
Correction 1

CONFIDENTIAL

March 22, 1985

To: Members of the Executive Board  
From: The Secretary  
Subject: The World Economy to 1990 - Prospects and Issues

The memorandum item "Other net external borrowing, excluding arrears" was included erroneously in Table 6 of EBS/85/47 (3/11/85). "Other net external borrowing," shown as a component of "Net External Borrowing," already excludes arrears. Changes in arrears are separately identified under "Reserve-Related Liabilities."

Corrected pages 33 and 34 are attached.

Att: (2)

Note: Except where otherwise footnoted, estimates shown here are based on national balance of payments statistics, which are not always easily reconcilable with year-to-year changes in either debtor- or creditor-reported debt statistics, mainly because the balance of payments statistics include valuation adjustments as well as changes in liabilities.

- <sup>1/</sup> For classification of countries in groups shown here, see the introduction to this appendix.  
<sup>2/</sup> Net total of balances on goods, services, and private transfers, as defined in the Fund's Balance of Payments Statistics (with sign reversed).  
<sup>3/</sup> Pertains primarily to export credit.  
<sup>4/</sup> Positioned here on the presumption that estimates reflect primarily unrecorded capital outflows.  
<sup>5/</sup> Comprises short-term borrowing by monetary authorities from other monetary authorities.  
<sup>6/</sup> Projected use of Fund credit does not take into account prospective programs.  
<sup>7/</sup> Estimates, based on debt statistics reported in Appendix Tables 45 and 46, of net disbursements by official creditors (other than monetary institutions).  
<sup>8/</sup> Residually calculated. Except for minor discrepancies in coverage, amounts shown reflect almost exclusively net external borrowing from private creditors.  
<sup>9/</sup> Refers only to long-term lending by banks guaranteed by government of debtor country. Bank lending also accounts for large fractions of unguaranteed long-term flows (included in "other" long-term flows) and short-term flows.
