CONFIDENTIAL

May 13, 1983

To: Members of the Executive Board
From: The Secretary
Subject: Review of the Fund's Income Position for the Financial Years
1983 and 1984

This paper provides supplementary information to the paper on the review of the Fund's income position for the financial years 1983 and 1984, which was circulated as EBS/83/75 on April 18, 1983.

If Executive Directors have technical or factual questions relating to this paper prior to the Board discussion, they should contact Mr. D. H. Brown, ext. 73288.

Att: (1)

INTERNATIONAL MONETARY FUND

Review of the Fund's Income Position for the
Financial Years 1983 and 1984

Prepared by the Treasurer's Department

Approved by W. O. Habermeier

May 12, 1983

The Fund's accounts for the financial year ended April 30, 1983 are closed and the result, subject to audit by the External Audit Committee, is net income of SDR 61 million instead of SDR 57 million that was recently estimated (see Table 1 and EBS/83/75, 4/18/83). Net operational income of SDR 257 million compares to SDR 258 million previously estimated, while total administrative expenses are SDR 5 million lower than estimated, largely because building expense incurred in 1983 was lower than estimated and also because accruals for administrative expense are based on more accurate figures than were available when EBS/83/75 was prepared.

As shown in Table 2 there were small differences between actual and estimated amounts of purchases and repurchases and differences between the estimated and actual amounts of the resources (SDRs and currencies) used in these operations in the last two months of the financial year 1983. In consequence, the amounts of balances subject to charges, remunerated positions, and the Fund's holdings of SDRs at the beginning of the financial year 1984 were marginally different from the amounts estimated earlier. However, these differences do not significantly affect the amounts of the average balances estimated for the financial year 1984 and in the staff's opinion do not warrant a revision of the estimated results for the financial year 1984 set out in EBS/83/75.
