

Tonga - Representative Rate for the Pa'anga

The Fund finds, after consultation with the authorities of Tonga, that the representative rate under Rule O-2(b)(ii) for the pa'anga against the U.S. dollar is the rate obtained on the basis of the fixed relationship of the pa'anga to the Australian dollar and the representative rate for the Australian dollar. Tonga will immediately inform the Fund of any change in the representative rate. (EBD/85/264, 10/22/85)
