**IMMEDIATE
ATTENTION**

EBD/97/53

May 12, 1997

To: Members of the Executive Board

From: The Secretary

Subject: **Release of Information—The General Data Dissemination System**

In their meetings with users and producers of data within the framework of the General Data Dissemination System, the staff would find it helpful to be able to make available copies of Appendix II, entitled "The General Data Dissemination System," of SM/97/75 (3/5/97), which bears the same title. The paper was discussed by the Board on May 26, 1997. The appendix in question is a purely factual description of the GDDS.

It is not proposed to bring this matter to the agenda of the Executive Board for discussion unless an Executive Director so requests by the close of business on Friday, May 16, 1997. In the absence of such a request, this proposal will be deemed approved by the Executive Board and it will be so recorded in the minutes of the next meeting thereafter.
