Greece--Extension of Approval of Exchange Restrictions  
and Multiple Currency Practice

---

Prepared by the European Department and the Exchange  
and Trade Relations Department

(In consultation with the Legal Department)

Approved by Brian Rose and S. Mookerjee

September 22, 1981

In concluding the 1980 Article IV consultation with Greece, the Executive Board granted approval until October 1, 1981 of the exchange restrictions and multiple currency practice resulting from the maintenance by Greece of various import deposit requirements, as described in SM/80/200 (Decision No. 6616-(80/131), adopted September 5, 1980). In accordance with its obligation under the Accession Treaty with the European Community (EC) to eliminate the advance import deposit requirements, Greece has in the meantime reduced by 25 per cent the schedule of rates for the prepayment and security deposit requirements with effect from January 1, 1981 (see Annex). Further reductions of 25 per cent from the original level of rates are scheduled each January 1 until the two requirements are eliminated on January 1, 1984.

In preparation of full membership in the EC on January 1, 1981, Greece also terminated its remaining eight bilateral payments agreements, including those with the People's Republic of China and Romania, with effect from December 31, 1980. A transitional period of six months was set for the liquidation of all clearing balances outstanding on January 1, 1981 with the exception of the agreement with the People's Republic of China, for which the liquidation period was four months.

The staff will be in contact with the Greek authorities during the Annual Meetings in order to agree on the timing of the next Article IV consultation mission, which will also provide an opportunity to review recent developments in Greece's exchange and trade system. In the meantime, the following decision is proposed for adoption by the Executive Board:

The approval under Decision No. 6616-(80/131) of Greece's exchange restrictions and multiple currency practice, with the changes described in EBD/81/245, is extended until June 30, 1982 or the completion of the next Article IV consultation with Greece, whichever is the earlier.
