

DOCUMENT OF INTERNATIONAL MONETARY FUND  
AND NOT FOR PUBLIC USE

**IMMEDIATE  
ATTENTION**

EBD/82/288

November 19, 1982

To: Members of the Executive Board

From: The Secretary

Subject: Finland - Request for Technical Assistance

The Bank of Finland has requested technical assistance in the installation and initial use of the Research Analysis Language (RAL) system. This is an analytical package which is widely used in the Fund. In the past the Fund has provided technical assistance in this area to the central banks of Sweden and Chile.

It is proposed to comply with this request by sending Mr. Adolph Limarzi, Computer Systems Officer, Data Processing Division, Administration Department, for a period of two weeks beginning November 29, 1982.

In the absence of a request for discussion by an Executive Director by the close of business on Tuesday, November 23, 1982, the proposal will be deemed to have been approved by the Executive Board and it will be so recorded in the minutes of the next meeting thereafter.
