CONTAINS CONFIDENTIAL
INFORMATION

August 21, 1987

To: Members of the Executive Board
From: The Acting Secretary
Subject: World Economic Outlook - Statistical Appendix

The attached statistical appendix provides background material for the Executive Board discussion on Friday, September 11, 1987 of the paper on prospects and policy issues related to the world economic outlook (EBS/87/182, 8/21/87).

Mr. Deppler (ext. 4610), Mr. Larsen (ext. 4613) or Mr. Gorne (ext. 4616) is available to answer technical or factual questions relating to this paper prior to the Board discussion.

Att: (1)

ROOM C-130

INTERNATIONAL MONETARY FUND

World Economic Outlook: Statistical Appendix

Prepared by the Research Department

(In consultation with the Area Departments,
the Exchange and Trade Relations Department and
the Fiscal Affairs Department)

Approved by Jacob A. Frenkel

August 21, 1987

Introduction

Assumptions and Conventions

The statistical tables in this appendix have been compiled on the basis of information available on or before August 7, 1987. The recording of the figures for 1987 and beyond with the same degree of precision as the historical figures is solely a matter of convenience. It is not intended to convey any connotation regarding the degree of accuracy attaching to these estimates and projections.

The estimates and projections for 1987 and 1988 are predicated on a number of assumptions and working hypotheses:

(1) for the major currencies, the average exchange rates of May 1987 will remain unchanged in real terms through the end of 1988;

(2) "present" policies of national authorities will be maintained;
and

(3) the price of oil will average \$17.00 a barrel in 1987, and \$17.60 in 1988.

A few of the tables include series expressed in SDRs (or based on SDR values). The U.S. dollar/SDR conversion rates used in this report are, for the historical period, the geometric averages of daily rates given in the Fund's International Financial Statistics (IFS). For the years prior to 1970, these data impute to the SDR a value of US\$1.00. For 1987 and 1988, the exchange rate assumptions specified above imply average U.S. dollar/SDR conversion rates of 1.294 and 1.313, respectively.

Classification of Countries

The classification scheme used in the preparation of this report is as follows.

Industrial countries comprise:

Australia	Germany, Fed. Rep. of	New Zealand
Austria	Iceland	Norway
Belgium	Ireland	Spain
Canada	Italy	Sweden
Denmark	Japan	Switzerland
Finland	Luxembourg	United Kingdom
France	Netherlands	United States

The seven largest countries in this group in terms of GNP--Canada, the United States, Japan, France, the Federal Republic of Germany, Italy, and the United Kingdom--are collectively referred to as the major industrial countries.

The developing countries include all other Fund members (as of July 15, 1987), together with certain essentially autonomous dependent territories for which adequate statistics are available. ^{1/} The regional breakdowns of data for developing countries conform to the regional classification used in the Fund's IFS. It should be noted that, in this classification, Egypt and Libyan Arab Jamahiriya are classified as part of the Middle East, not Africa.

The analytical groupings in this classification are (1) countries grouped by predominant export; (2) countries grouped by financial criteria; (3) countries grouped by other criteria; and (4) countries grouped by former classification criteria. At present, the financial criteria first distinguish among capital exporting and capital importing countries. Countries in the latter, much larger, group are then distinguished on the basis of two additional financial criteria: by predominant type of creditor and by the degree of debt-servicing difficulties they have faced. The country groups shown under the heading of "miscellaneous criteria" include capital importing fuel exporters; fifteen heavily indebted countries; 60 SAF-eligible countries; and sub-Saharan Africa (excluding Nigeria and South Africa). The

^{1/} It should be noted that the term "country" used in this publication does not in all cases refer to a territorial entity that is a state as understood by international law and practice. The term also covers some territorial entities that are not states but for which data are maintained and provided internationally on a separate and independent basis.

Table A. Developing Countries: Shares of Various Subgroups in Aggregate GDP, Exports of Goods and Services, and Debt Outstanding, 1984-86

(In percent)

	GDP	Exports of Goods and Services	Debt	Memorandum: Number of Countries in Each Subgroup
Developing countries	100.0	100.0	100.0	133
By region				
Africa	11.8	11.1	14.1	48
Asia	33.7	37.1	24.0	27
Europe	8.5	11.8	12.4	9
Middle East	17.6	22.3	13.1	16
Western Hemisphere	28.4	17.8	36.5	33
By predominant export				
Fuel exporters	30.8	32.8	27.5	20
Non-fuel exporters	69.2	67.2	72.5	113
Primary product exporters	34.0	24.1	43.4	73
Agricultural exporters	28.6	17.9	33.9	55
Mineral exporters	5.3	6.2	9.5	18
Exporters of manufactures	29.1	36.4	19.6	11
Service and remittance countries	6.1	6.8	9.5	29
By financial criteria				
Capital exporting countries	13.9	17.6	5.7	8
Capital importing countries	86.1	82.4	94.3	125
Market borrowers	51.9	57.4	60.6	34
Official borrowers	6.7	5.2	10.3	60
Diversified borrowers	27.6	19.8	23.3	31
Countries with recent debt- servicing difficulties	41.2	32.3	58.4	65
Countries without recent debt- servicing difficulties	44.9	50.1	35.8	60
By miscellaneous criteria				
Capital importing fuel exporters	17.0	15.2	21.8	12
Fifteen heavily indebted countries	32.6	20.9	41.4	15
60 SAF-eligible countries	6.0	3.7	9.2	60
Sub-Saharan Africa ^{1/}	3.7	3.8	6.5	43
By alternative analytical categories				
Oil exporting countries	23.5	26.1	16.1	12
Non-oil developing countries	76.5	73.9	83.9	121

^{1/} Excluding Nigeria and South Africa.

accompanying table presents a breakdown of these analytical groupings according to the proportion of developing country GDP, exports of goods and services, and level of indebtedness. Further details on the classification scheme are given below.

The first analytical criterion used to group developing countries is by predominant export category. Four categories are distinguished: fuel (SITC (Standard International Trade Classification) 3); other primary commodities (SITC 0,1,2, 4, and diamonds and gemstones); manufactures (SITC 5 to 8, less diamonds and gemstones); and "services and remittances." On the basis of data for 1980, countries are assigned to the commodity grouping that accounts for 50 percent or more of their exports. Specifically, countries are assigned to the "services and remittances" category if their receipts on these transactions account for at least half of their exports of goods and services. If countries do not meet this criterion, they are assigned to the trade category (of the three listed above) that accounts for at least half of their total merchandise exports. 2/

Given these definitions, the fuel exporters comprise:

Algeria	Kuwait	Syrian Arab Rep.
Bahrain	Libyan Arab	Trinidad and
Congo	Jamahiriya	Tobago
Ecuador	Mexico	Tunisia
Gabon	Nigeria	United Arab
Indonesia	Oman	Emirates
Iran, Islamic Rep. of	Qatar	Venezuela
Iraq	Saudi Arabia	

The primary product exporters, that is, countries whose exports of agricultural and mineral primary products other than fuel accounted for over 50 percent of their total exports in 1980, comprise:

Afghanistan	Gambia, The	Peru
Argentina	Ghana	Philippines
Bangladesh	Guatemala	Rwanda
Belize	Guinea	São Tomé and
Benin	Guinea-Bissau	Principe
Bhutan	Guyana	Senegal
Bolivia	Haiti	Sierra Leone
Botswana	Honduras	Solomon Islands
Brazil	Jamaica	Somalia
Burma	Kenya	South Africa

2/ Two countries that did not meet any of the above criteria were assigned to the trade category that accounted for the largest share of their exports.

Burundi	Lao People's	Sri Lanka
Cameroon	Dem. Rep.	St. Kitts and
Central African	Liberia	Nevis
Rep.	Madagascar	Sudan
Chad	Malawi	Suriname
Chile	Malaysia	Swaziland
Colombia	Mali	Tanzania
Comoros	Mauritania	Thailand
Costa Rica	Mauritius	Togo
Côte d'Ivoire	Morocco	Turkey
Djibouti	Mozambique	Uganda
Dominican Rep.	Nicaragua	Uruguay
El Salvador	Niger	Viet Nam
Equatorial Guinea	Papua New	Zaire
Ethiopia	Guinea	Zambia
Fiji	Paraguay	Zimbabwe

A further distinction is made among the "primary product exporters" on the basis of whether countries' exports of primary commodities (other than fuel) consisted primarily of agricultural (SITC 0, 1, 2 except 27, 28, and 4) or mineral (SITC 27 and 28 and diamonds and gemstones) commodities. The mineral exporters comprise:

Bolivia	Liberia	South Africa
Botswana	Mauritania	Suriname
Chile	Morocco	Togo
Guinea	Niger	Zaire
Guyana	Peru	Zambia
Jamaica	Sierra Leone	Zimbabwe

The agricultural exporters are those non-fuel primary product exporters that are not also mineral exporters.

The exporters of manufactures (that is, those countries or areas whose exports of manufactures accounted in 1980 for over 50 percent of total exports) comprise:

China	Israel	Singapore
Hong Kong	Korea	Taiwan, Province
Hungary	Poland	of China
India	Romania	Yugoslavia

The service and remittance countries, that is, those countries whose receipts from services (such as tourism) and private transfers (such as workers' remittances) amount to at least 50 percent of their exports of goods and services, comprise:

Antigua and Barbuda	Lebanon	St. Vincent
Bahamas, The	Lesotho	Tonga
Barbados	Maldives	Vanuatu
Burkina Faso	Malta	Western Samoa

Cape Verde	Nepal	Yemen Arab
Cyprus	Netherlands	Rep.
Dominica	Antilles	Yemen,
Egypt	Pakistan	People's
Greece	Panama	Dem. Rep
Grenada	Portugal	of
Jordan	Seychelles	
Kampuchea, Democratic	St. Lucia	

The primary product exporters, exporters of manufactures, and service and remittance countries taken together are referred to as the "non-fuel exporters."

A second set of analytical groupings of developing countries is based on financial criteria. A first distinction is made between those developing countries that have traditionally been capital exporters and those that have traditionally been capital importers. At present, capital exporters are defined as those developing countries that, on average, recorded a current account surplus during the period 1979-81 and were aid donors over the same period. The capital exporting countries comprise:

Iran, Islamic	Libyan Arab	Saudi Arabia
Rep. of	Jamahiriya	United Arab
Iraq	Oman	Emirates
Kuwait	Qatar	

The capital importing countries comprise all other developing countries.

Within the group of capital importing developing countries and areas, two types of financial distinction are made. The first distinguishes among countries and areas on the basis of their predominant type of creditor. Market borrowers are defined as those countries that obtained at least two thirds of their external borrowings from 1978 to 1982 from commercial creditors. The group comprises:

Algeria	Côte d'Ivoire	Malaysia	Portugal
Antigua and	Cyprus	Mexico	Singapore
Barbuda	Ecuador	Nigeria	South Africa
Argentina	Gabon	Panama	Taiwan, Province
Bahamas, The	Greece	Papua New	of China
Bolivia	Hong Kong	Guinea	Trinidad
Brazil	Hungary	Paraguay	and Tobago
Chile	Indonesia	Peru	Uruguay
Colombia	Korea	Philippines	Venezuela
Congo			Yugoslavia

Official borrowers comprise those countries, except China and India, that obtained two thirds or more of their external borrowings from 1978 to 1982 from official creditors. The countries are:

Afghanistan	Fiji	Malta	Swaziland
Bahrain	Gambia, The	Mauritania	Syrian Arab
Bangladesh	Ghana	Nepal	Rep.
Bhutan	Grenada	Netherlands	Tanzania
Burkina Faso	Guatemala	Antilles	Togo
Burma	Guinea	Nicaragua	Tonga
Burundi	Guinea-	Pakistan	Uganda
Cape Verde	Bissau	Rwanda	Viet Nam
Central	Guyana	São Tomé	Western
African	Honduras	and	Samoa
Rep.	Jamaica	Principe	Yemen Arab
Chad	Jordan	Senegal	Rep.
Comoros	Lao People's	Seychelles	Yemen,
Djibouti	Dem. Rep.	Sierra	People's
Dominica	Liberia	Leone	Dem.
Dominican	Madagascar	Somalia	Rep. of
Rep.	Malawi	St. Lucia	Zaire
El Salvador	Maldives	St. Vincent	Zambia
Equatorial	Mali	Sudan	
Guinea			

Diversified borrowers comprise those capital importing developing countries that are not market or official borrowers. These countries' external borrowings in 1978-82 were more or less evenly divided between official and commercial creditors. China and India are included in this group. Commercial borrowers comprise those countries classified as either market or diversified borrowers.

A second financial distinction among capital importing developing countries is based on whether countries have or have not experienced debt-servicing difficulties in the recent past. Countries that have experienced debt-servicing problems are defined as those countries which incurred external payments arrears during 1985 or rescheduled their debt during the period from end-1983 to end-1986 as reported in the relevant issues of the Fund's Annual Report on Exchange Arrangements and Exchange Restrictions. Countries classified as not having experienced debt-servicing problems are defined as all other capital importing developing countries.

Several other analytical groups are also used in the report. One of these is the group of capital importing fuel exporters. This group, which is also referred to as the "indebted fuel exporters," comprises those 12 fuel exporters that are not capital exporters. A second is the group of fifteen heavily indebted countries. This group comprises:

Argentina	Côte d'Ivoire	Peru
Bolivia	Ecuador	Philippines
Brazil	Mexico	Uruguay
Chile	Morocco	Venezuela
Colombia	Nigeria	Yugoslavia

A third is the group of sixty SAF-eligible countries, comprising those Fund members, excluding China and India, who are eligible to receive balance of payment assistance under the Structural Adjustment Facility (SAF). The countries in this group are:

Afghanistan	Ethiopia	Madagascar	Sri Lanka
Bangladesh	Gambia, The	Malawi	St. Kitts-Nevis
Benin	Ghana	Maldives	St. Lucia
Bhutan	Grenada	Mali	St. Vincent
Bolivia	Guinea	Mauritania	Sudan
Burkina Faso	Guinea-	Mozambique	Tanzania
Burma	Bissau	Nepal	Togo
Burundi	Guyana	Niger	Tonga
Cape Verde	Haiti	Pakistan	Uganda
Central	Kampuchea	Rwanda	Vanuatu
African	Democratic	São Tomé	Viet Nam
Rep.	Kenya	and	Western Samoa
Chad	Kiribati	Principe	Yemen Arab Rep.
Comoros	Lao People's	Senegal	Yemen, P.D. Rep.
Djibouti	Dem. Rep.	Sierra Leone	Zaire
Dominica	Lesotho	Solomon Islands	Zambia
Equatorial	Liberia	Somalia	
Guinea			

Reference is also made to sub-Saharan Africa, which comprises all African countries (as defined in IFS) except Algeria, Morocco, Nigeria, South Africa, and Tunisia.

Finally, in the classification used in Fund publications until recently, the developing countries were divided into two groups--"oil exporting countries" 3/ and "non-oil developing countries." The countries included under the heading oil exporting countries were:

Algeria	Kuwait	Qatar
Indonesia	Libyan Arab	Saudi Arabia
Iran, Islamic	Jamahiriya	United Arab
Rep. of	Nigeria	Emirates
Iraq	Oman	Venezuela

The remaining countries, grouped under the heading non-oil developing countries, were further disaggregated into subgroupings based primarily on the character of the countries' economic activity and on the predominant composition of their exports.

3/ The countries included here were those whose oil exports (net of any imports of crude oil) both accounted for at least two thirds of total exports and were at least 100 million barrels a year (roughly equivalent to 1 percent of annual world exports). These criteria were applied to 1978-80 averages.

Except where otherwise specifically indicated, the Union of Soviet Socialist Republics, nonmember countries of Eastern Europe, Cuba, and North Korea are excluded from the tables in this report. Also, it has not been possible to include in the tables a number of small countries or territories for which trade and payments data are not available.

List of Tables

Output and Employment

- A1. World Output, 1969-88
- A2. Industrial Countries: Real GNP and Total Domestic Demand, 1969-88
- A3. Industrial Countries: Components of Real GNP, 1969-88
- A4. Industrial Countries: Employment and Unemployment, 1969-88
- A5. Developing Countries: Real GDP, 1969-88
- A6. Developing Countries: Per Capita Real GDP, 1969-88
- A7. Developing Countries: Gross Capital Formation, 1979-87

Inflation

- A8. Inflation, 1969-88
- A9. Industrial Countries: GNP Deflators and Consumer Prices, 1969-88
- A10. Industrial Countries: Hourly Earnings, Productivity, and Unit Labor Costs in Manufacturing, 1969-88
- A11. Developing Countries: Consumer Prices--Weighted Averages, 1969-88
- A12. Developing Countries: Consumer Prices--Median Estimates, 1969-88

Financial Policies

- A13. Summary Financial Indicators, 1979-88
- A14. Major Industrial Countries: Monetary Aggregates, 1979-87
- A15. Major Industrial Countries: Interest Rates, 1979-July 1987
- A16. Major Industrial Countries: Central Government Fiscal Balances and Impulses, 1979-88
- A17. Major Industrial Countries: General Government Fiscal Balances and Impulses, 1979-88
- A18. Developing Countries: Broad Money Aggregates, 1979-86
- A19. Developing Countries: Central Government Fiscal Balances, 1979-87

Foreign Trade

- A20. Summary of World Trade Volumes and Prices, 1969-88
- A21. Industrial Countries: Merchandise Trade, 1969-88

- A22. Industrial Countries: Export Volumes, Import Volumes, and Terms of Trade, 1969-88
- A23. Developing Countries: Merchandise Trade, 1969-88
- A24. Developing Countries: Export Volumes, 1969-88
- A25. Developing Countries: Import Volumes, 1969-88
- A26. Developing Countries: Export Unit Values, 1969-88
- A27. Developing Countries: Import Unit Values, 1969-88
- A28. Developing Countries: Terms of Trade, 1969-88
- A29. Developing Countries: Non-Oil Commodity Prices, 1969-88

Current Account Transactions

- A30. Summary of Payments Balances on Current Account, 1979-88
- A31. Industrial Countries: Balance of Payments on Current Account, 1979-88
- A32. Industrial Countries: Current Account Transactions, 1979-88
- A33. Developing Countries: Summary of Payments Balances on Current Account, 1979-88
- A34. Developing Countries: Summary of Payments Balances on Goods, Services; and Private Transfers, 1979-88
- A35. Developing Countries: Current Account Balances as Percentage of Exports of Goods and Services, 1969-88
- A36. Developing Countries--by Region: Current Account Transactions, 1979-88
- A37. Developing Countries--by Predominant Export: Current Account Transactions, 1979-88
- A38. Developing Countries--by Financial and Other Criteria: Current Account Transactions, 1979-88
- A39. Developing Countries--by Alternative Analytical Categories: Current Account Transactions, 1979-88

Current Account Financing

- A40. Developing Countries--by Class of Creditor: External Financing, 1979-88
- A41. Developing Countries--by Region: Summary of External Financing, 1979-88
- A42. Developing Countries--by Analytical Subgroup: Summary of External Financing, 1979-88
- A43. Developing Countries--by Alternative Analytical Categories: Summary of External Financing, 1979-88
- A44. Developing Countries: Reserves and Ratios of Reserves to Imports of Goods and Services, 1979-88

- A45. Developing Countries: Use of Fund Credit,
1979-88

External Debt and Debt Service

- A46. Developing Countries: External Debt
and Debt Service, 1979-88
- A47. Developing Countries--by Region:
External Debt, by Class of Creditor,
End of Year, 1979-88
- A48. Developing Countries--by Analytical
Criteria: External Debt, by
Class of Creditor, End of Year, 1979-88
- A49. Developing Countries--by Alternative
Analytical Categories: External Debt,
by Class of Creditor, End of Year, 1979-88
- A50. Developing Countries: Long-Term and
Short-Term External Debt Relative
to Exports and to GDP, 1979-88
- A51. Developing Countries: Debt Service Ratios, 1979-88
- A52. Developing Countries: Fund Charges
and Repurchases from the Fund, 1979-88

Medium-Term Scenario

- A53. Results of Baseline Medium-Term Scenario, 1977-91
- A54. Capital Importing Developing Countries: Current
Account Balance, External Debt and Debt
Service--Medium-Term Scenario, 1979-91
- A55. Capital Importing Developing Countries: Output
and Foreign Trade--Medium-Term Scenario, 1968-91

¹ Real GDP (or GNP) for industrial and developing countries and real net material product (NMP) for other countries. Composites for the country groups are averages of percentage changes for individual countries weighted by the average U.S. dollar value of their respective GDPs (GNPs or NMPs where applicable) over the preceding three years. Because of the uncertainty surrounding the valuation of the composite NMP of the other countries, they have been assigned—somewhat arbitrarily—a weight of 15 percent in the calculation of the growth of world output. Excluding China prior to 1978.

² Compound annual rates of change.

³ The U.S.S.R. and other countries of Eastern Europe that are not members of the Fund.

¹ The figures in the table are not comparable among countries since they are based on the differing labor force definitions and concepts used by the respective national statistical agencies.

² Composites for the country groups are averages of percentage changes for individual countries weighted by the average U.S. dollar value of their respective GNPs over the preceding three years.

³ National unemployment rates weighted by labor force in the respective countries.

⁴ Figures for 1969 to 1977 have been adjusted by the staff to allow for a discontinuity in Italian labor force statistics.

¹ Composites for the country groups are averages of percentage changes for individual countries weighted by the average U.S. dollar value of their respective GNPs over the preceding three years.

² From fourth quarter of preceding year.

³ M1 is generally currency in circulation plus private demand deposits. In addition, Canada excludes private sector float; the United States includes traveler's checks of nonbank issues and other checkable deposits and excludes private sector float and demand deposits of banks; the Federal Republic of Germany includes demand deposits at fixed interest rates; and Japan includes government demand deposits and excludes float.

⁴ M1 plus quasi-money—generally "M2," except for the United Kingdom, Japan, and the Federal Republic of Germany, for which the data are based on sterling M3, M2 + CD, and M3, respectively. Quasi-money is essentially private term deposits and other notice deposits. The United States also includes money market mutual fund balances, money market deposit accounts, overnight repurchase agreements, and overnight Eurodollars issued to U.S. residents by foreign branches of U.S. banks. France also includes government savings bonds. Sterling M3 is M1 plus private sterling time deposits. For Japan, M2 + CD is currency in circulation plus total private and public sector deposits and installments of Sogo Banks plus certificates of deposit. For the Federal Republic of Germany, M3 is M1 plus private time deposits with maturities of less than four years plus savings deposits at statutory notice.

Four major European countries above	10.2	12.1	14.5	13.8	12.0	11.1	10.0	8.4	8.3

¹ Composites for the country groups are averages of interest rates for individual countries weighted by the average U.S. dollar value of their respective GNPs over the preceding three years.

² Interest rate on the following instruments: Canada, three-month Financial paper; United States, 90-day bank certificates of deposit in secondary market; Japan, discount rate on two-month private bills from 1981 (prior to 1981, unconditional call money rate); France, the Federal Republic of Germany, Italy, and the United Kingdom, three-month interbank loan rate.

³ Average yield to maturity of central government bonds with terms of 10 years or more for Canada, 10 years for the United States, and over the counter sales yields of interest bearing government bonds with maturities of 10 years or more for Japan. Average yield to maturity of National Equipment Bonds of 1965, 1966, and 1967 for France, public authorities bonds with remaining maturity of more than three years for the Federal Republic of Germany, bonds issued by the Consortium of Credit for Public Works with an average maturity of 15 to 20 years for Italy, and central government bonds with 20 years to maturity for the United Kingdom.

¹ Composites for the country groups are weighted averages of the individual national ratios for each year, with weights proportionate to the U.S. dollar value of the respective GNPs in the preceding three years.

² Canada, France, Italy and the United Kingdom : in percent of GDP.

³ Data for Canada and the United Kingdom are on a national income accounts basis.

⁴ Data for the United States are on a unified budget basis.

⁵ Data for Japan cover the consolidated operations of the general account, certain special accounts, social security transactions, and disbursements of the fiscal investment and loan program (FILP) except those to financial institutions. Japanese data other than FILP transactions are based on national income accounts.

⁶ Data for France are on an administrative basis and exclude social security transactions.

⁷ Data for the Federal Republic of Germany are on an administrative basis and exclude social security transactions.

⁸ Data for Italy refer to the state sector and cover the transactions of the state budget as well as those of several autonomous entities operating at the same level but do not include the gross transactions of social security institutions, only their deficits. Data from 1980 are not comparable with those for 1979 because they are based on a recent revision of the national income accounts. The fiscal impulse estimate of the April 1987 WEO is shown for the transitional year 1980.

¹ Data are on a national income accounts basis. Composites for the country groups are weighted averages of the individual national ratios for each year, with weights proportionate to the U.S. dollar value of the respective GNPs in the preceding three years.

² Canada, France, Italy, and the United Kingdom: in percent of GDP.

³ Data from 1980 are not comparable with those for 1979 because they are based on a recent revision of the national income accounts. The fiscal impulse estimate of the April 1987 WEO is shown for the transitional year 1980.

⁴ General government, on an administrative basis, excluding social security transactions.

Non-oil primary commodities	10.3	17.9	5.5	-13.5	-9.9	6.9	4.2	-12.9	-1.1	-2.2	4.6

¹ Excluding China prior to 1978 except as indicated in footnote 3.² Compound annual rates of change.³ Averages of growth rates for world exports and imports based on data for the two groups of countries shown separately below and on partly estimated data for the U.S.S.R. and nonmember countries of Eastern Europe and, for years prior to 1978, China. Estimates of the growth of world trade are uncertain, and appear especially so in 1986. The GATT secretariat estimates that world trade rose by only 3 1/2 percent, significantly less than the Fund staff's estimate of about 5 percent. This difference results mainly from the choice of data used for the United States and nonmember countries.⁴ For years prior to 1970, an imputed value of US\$1.00 has been assigned to the SDR.⁵ As represented, respectively, by the export unit value index for the manufactures of the industrial countries; the oil export unit value of the oil exporting countries (according to the former analytical categories); and the index of market quotations for non-oil primary commodities exported by the developing countries.

¹ Including official transfers.

² Covers estimated balances on current transactions only in convertible currencies of the U.S.S.R. and nonmember countries of Eastern Europe.

³ Reflects errors, omissions, and asymmetries in reported balance of payments statistics on current account, plus balance of listed groups with countries not included.

⁴ Staff estimates of the difference between the beginning-of-year and end-of-year "float," that is, the value of those exports that have not yet been recorded as imports (usually because the goods are in transit or because of delays in the processing of the documentation). The estimates should be viewed only as rough orders of magnitude.

NOTE: Except where otherwise footnoted, estimates shown here are based on national balance of payments statistics, which are not always easily reconcilable with year-to-year changes in either debtor- or creditor-reported debt statistics, in part because the latter are affected by changes in valuation.

¹ Equivalent to current account deficit less official transfers. For purposes of this table, official transfers are treated as external financing.

² Pertains primarily to export credit.

³ Positioned here on the presumption that estimates reflect primarily unrecorded capital outflows.

⁴ Comprises short-term borrowing by monetary authorities from other monetary authorities.

⁵ Projected use of Fund credit includes prospective programs.

⁶ Estimates, based on debt statistics reported in Tables A47 and A48, of net disbursements by official creditors (other than monetary institutions). Official net disbursements include the increase in official claims caused by the transfer of officially-guaranteed claims to the guarantor agency in the creditor country, usually in the context of debt reschedulings.

⁷ Residually calculated. Except for discrepancies in coverage, amounts shown reflect mainly net external borrowing from private creditors and short-term flows.

NOTE: Except where otherwise footnoted, estimates shown here are based on national balance of payments statistics, which are not always easily reconcilable with year-to-year changes in either debtor- or creditor-reported debt statistics, in part because the latter are affected by changes in valuation.

¹ Equivalent to current account deficit less official transfers. For the purposes of this table, official transfers are treated as external financing.

² Pertains primarily to export credit.

³ Positioned here on the presumption that estimates reflect primarily unrecorded capital outflows.

⁴ Comprises short-term borrowing by the monetary authorities from other monetary authorities.

⁵ Projected use of Fund credit includes prospective programs.

⁶ Estimates, based on debt statistics reported in Table A49, of net disbursements by official creditors (other than monetary institutions). Official net disbursements include the increase in official claims caused by the transfer of officially-guaranteed claims to the guarantor agency in the creditor country, usually in the context of debt reschedulings.

⁷ Residually calculated. Except for discrepancies in coverage, amounts shown reflect mainly net borrowing from private creditors.

⁸ For definition of stubs, see footnotes on the non-oil developing countries.

¹ For this table, official holdings of gold are valued at SDR 35 an ounce. This convention results in a significant underestimate of the reserves of those groups of countries that have substantial holdings of gold.² Excluding Nigeria and South Africa.³ Ratio of end-year reserves to imports of goods and services during the year indicated.
