

**EXECUTIVE
BOARD
MEETING**

SM/19/73
Supplement 1

April 9, 2019

To: Members of the Executive Board

From: The Secretary

Subject: **People's Republic of China—Macao Special Administrative Region—Staff Report for the 2019 Article IV Consultation Discussions—Informational Annex**

Board Action: Executive Directors' **consideration** (Formal)

Tentative Board Date: **Wednesday, April 24, 2019**

Publication: Not yet decided*

Questions: Ms. Colacelli, APD (ext. 36090)

***At the time of circulation of this paper to the Board, the authorities have indicated that they need more time to consider whether they will consent to the Fund's publication of this paper. Publication will only proceed upon the receipt by the Fund of the member's explicit consent.**

PEOPLE'S REPUBLIC OF CHINA—MACAO SPECIAL ADMINISTRATIVE REGION

STAFF REPORT FOR THE 2019 ARTICLE IV CONSULTATION DISCUSSIONS—INFORMATIONAL ANNEX

April 5, 2019

FUND RELATIONS

Membership Status

As a Special Administrative Region of the People's Republic of China, Macao SAR is not a member of the Fund. The first Article IV consultation discussions since the handover in 1999 took place during April 22–29, 2014 and the Board discussion took place in July 2014. Its Article IV is in a 24-month cycle. The latest Article IV consultation discussions took place during February 13–25, 2019. Outside of the Article IV process, the Fund has maintained a relationship with Macao SAR, focused mainly on technical assistance and training. STA provided technical assistance with compiling FSIs in 2013 and on the balance of payments in 2008, MCM completed an assessment of the financial sector regulation and supervision under the OFC program in 2002 and 2008/2009 (published in 2011), and LEG provided advice on AML/CFT issues resulting in new legislation in 2006.

Exchange Rate Arrangement

Since 1989, Macao SAR has been operating under a currency board arrangement. On April 7, 1977, the exchange rate of Macao SAR's currency, the pataca, was formally delinked from the Portuguese escudo and linked to the Hong Kong dollar at a central rate of MOP 1.075/HK\$, and the transaction rates were allowed to deviate from this rate as long as they were within a band of +/-1 percent of the central rate. Effective January 1979, the central rate of the pataca was set at MOP 1.038/HK\$, and in September 1983, was adjusted to MOP 1.03/HK\$, and the transaction rates were to take place within a narrow band on either side of the central rate. This arrangement continued through May 1987.

Since then, the pataca has been tied to the Hong Kong dollar at a rate of MOP1.03/HK\$, and is therefore also in effect linked to the US\$, at around MOP8/US\$. Notes are issued by two banks, which deliver Hong Kong dollars to the AMCM in return for noninterest bearing certificates of indebtedness, which serve as the backing for the banknote issue. The Hong Kong dollars are then counted as part of the official foreign exchange reserves held at the AMCM. Under the currency board arrangement, the pataca is 100 percent backed by foreign assets. There are no exchange restrictions on current and capital account transactions. With capital freely mobile, monetary conditions in Macao SAR are strongly influenced by conditions in Hong Kong SAR and the United States market.

STATISTICAL ISSUES

(As of March 28, 2019)

I. Assessment of Data Adequacy for Surveillance
<p>General: Data provision is broadly adequate for surveillance.</p>
<p>National Accounts: Macao SAR compiles quarterly and annual estimates of GDP by expenditure category, at current prices and in volume terms. The volume measures are derived using annual chain linking methods. The estimates by type of activity (production approach) are compiled in current prices and in volume terms only at annual frequency, due to the unavailability of relevant quarterly deflators. A major revision of the compilation process was undertaken in 2016. Macao SAR reports annual and quarterly GDP to the IMF for publication in <i>International Financial Statistics (IFS)</i>; latest data available: 2018: Q4. STA has not provided technical assistance in national accounts to Macao SAR over the past ten years.</p>
<p>Price Statistics: Macao SAR compiles a monthly consumer price index (CPI) with a base period of October 2013 to September 2014. The index is rebased every five years and has been available since October 2009. The current weights were derived from the 2012/13 household income and expenditure survey. Macao SAR releases a composite CPI, which reflects price changes for the general population of households, CPI-A that covers households with an average monthly expenditure of MOP 10,000 to MOP 29,999 (about 50 percent of households), and a CPI-B that covers households with an average monthly expenditure of MOP 30,000 to MOP 54,999 (about 30 percent of households). Macao SAR submits CPI data to the IMF for publication in <i>IFS</i>.</p>
<p>Government Finance Statistics: Macao SAR reports detailed annual consolidated general government accounts (budget, 39 extra budgetary units, and the social security fund) in the <i>GFSM 2001</i> format for inclusion in the <i>Government Finance Statistics</i> Database, along with summary quarterly general government accounts. However, the GFS series could be usefully augmented by the reporting of a financial balance sheet, as outlined in the 2010 Board decision regarding government finance statistics to strengthen fiscal analysis.</p>
<p>Monetary and Financial Statistics: The Monetary Authority of Macao (AMCM) reports, on a timely basis, monthly monetary data to STA for publication in <i>IFS</i>. These data are reported in the format of the Standardized Report Forms (SRFs) for central bank (1SR) and other depository corporations (2SR), monetary aggregates (5SR) and interest rates and share prices (6SR), which embody the IMF-recommended methodology for compiling monetary statistics. Macao SAR reports data on some key series and indicators of the Financial Access Survey (FAS), including the two indicators of the U.N. Sustainable Development Goals.</p>
<p>Financial sector surveillance: In July 2013, an STA mission assisted the authorities in establishing procedures for compiling FSIs in accordance with the IMF-recommended framework. Currently, the AMCM produces the full set of core and encouraged FSIs for deposit takers, and regularly reports them to STA for dissemination on the IMF website.</p>
<p>External sector statistics: The AMCM compiles and disseminates annual balance of payments (BOP) statistics. There is no publication of external debt data as well as International Investment</p>

Position (IIP) Statistics. Lack of these data is not conducive to strengthening the balance sheet approach framework. Since 2012, the BOP of Macao SAR has been compiled following the methodology and classification of the sixth edition of the *Balance of Payments and International Investment Position Manual (BPM6)*. BOP data for 2002–11 were originally compiled under the format of the fifth edition of the *Balance of Payments Manual (BPM5)* and converted to the *BPM6* format. Although, external sector statistics are not yet compiled on a quarterly basis, Macao SAR participates in major Fund Statistical Initiatives, such as the Enhanced General Data Dissemination System (e-GDDS), the Coordinated Portfolio Investment Survey (CPIS), and the Coordinated Direct Investment Survey (CDIS). Direct investment abroad by Macao SAR household sector is not covered in external sector statistics. Household financial investment abroad only covers those transactions going through local authorized financial institutions, and hence, transactions outside the local financial channel are not recorded. In addition, compensation of Macao SAR employees earned abroad is not covered in the BOP.

II. Data Standards and Quality

Macao SAR participates in the IMF's enhanced General Data Dissemination System (e-GDDS) since August 2007 and has implemented a [National Summary Data Page](#) for the dissemination of key macroeconomic statistics.

The metadata for key macroeconomic indicators, available on the country page on the IMF's Dissemination Standards Bulletin Board, were updated in October 2018.

No data ROSC is available.

Table of Common Indicators Required for Surveillance

	Date of Latest Observation	Date received	Frequency of Data ⁵	Frequency of Reporting ⁵	Frequency of Publication ⁵
Exchange Rates	02/19	03/19	M	M	M
International Reserve Assets and Reserve Liabilities of the Monetary Authorities ¹	01/19	03/19	M	M	M
Reserve/Base Money	01/19	03/19	M	M	M
Broad Money	01/19	03/19	M	M	M
Central Bank Balance Sheet	01/19	03/19	M	M	M
Consolidated Balance Sheet of the Banking System	01/19	03/19	M	M	M
Interest Rates ²	02/19	03/19	M	M	M
Consumer Price Index	12/18	02/19	M	M	M
Revenue, Expenditure, Balance and Composition of Financing – General Government	Q3/18	11/18	Q	Q	Q
Stocks of Central Government and Central Government - Guaranteed Debt ³
External Current Account Balance ⁴	2017	12/18	A	A	A
Exports and Imports of Goods and Services	2017	12/18	A	A	A
GDP/GNP	Q4/18	02/19	Q	Q	Q
Gross External Debt	NA	NA	NA	NA	NA
International Investment Position	NA	NA	NA	NA	NA
¹ Any reserve assets that are pledged or otherwise encumbered should be specified separately. Also, data should comprise short-term liabilities linked to a foreign currency but settled by other means as well as the notional values of financial derivatives to pay and to receive foreign currency, including those linked to a foreign currency but settled by other means. ² Both market-based and officially-determined, including discount rates, money market rates, rates on monetary bills. ³ Macao SAR has no government debt. ⁴ Goods trade data from external statistics are available are provided monthly. Services trade data in BOP format are released annually with the current account statistics. ⁵ Daily (D), Weekly (W), Monthly (M), Quarterly (Q), Annually (A); Irregular (I); Not Available (NA).
